

Pairing Your Device with Seahorse

Before using the Fisher-Price® Smart app for the first time, pair your device (not included) with the seahorse.

1. Open the fasteners on the back of the seahorse to access the pairing button and the power/volume switch.
2. Slide the power/volume switch to ON with low volume  or ON with high volume .
3. Open the Fisher-Price® Smart app on your device.
4. Press the pairing button on the seahorse. Pairing may take up to 30 seconds and you'll see that you're connected in the app!

Note:

- Once you've paired your device to the seahorse, you do not need to pair again.
- If you cannot pair your device to the seahorse, try moving the device closer to the product and make sure your wireless connection is enabled on your device.

Smart Soothe & Glow Seahorse™

-
- Squeeze tummy to start 10 minutes of sweet, soothing lullabies along with a soft glow.
 - Press and hold tummy for about three seconds to turn off music and light. Or, open the fasteners on the back of this toy to access the power/volume switch and slide it OFF .
 - If the product begins to operate erratically you may need to reset the electronics. Slide the power/volume switch off and then back on.
 - This toy has more features when using with the Fisher-Price Smart app. Visit www.fisherpricesmart.com/download to download the free app.
 - Select music & sounds
 - Control volume
 - Choose increments of brightness
 - Select light colors & combinations
 - Set adjustable timer
 - Save baby's favorite combinations
 - Use your device to turn the seahorse power ON or OFF. Note that when using this feature on your device, you may need to re-activate the seahorse if it has not been used for more than 25 hours. Make sure main power is ON (power/volume switch) and press the seahorse's tummy.
